

"We shall operate and maintain a safe and healthy work environment with focus on performance, creativity, knowledge and personal growth"

Blue Logic shall:

- *Always put safety first*
- *Provide safe and healthy working conditions to prevent incidents and work-related illness*
- *Identify opportunities to eliminate hazards and reduce risks*
- *Have a high social commitment on all levels in all operations*
- *Identify and fulfill all applicable rules and regulations*
- *Operate and maintain a management system according to good health and safety practice*
- *Create an environment where colleagues feel cared for and are confident to speak up*

Health and safety are both a line- and a personal responsibility. Everyone is responsible for their own and others safety at all times.
